## MANAGEMENT DISCUSSION ANALYSIS

### **GLOBAL ECONOMIC ENVIRONMENT AND OUTLOOK**

Major macroeconomic realignments are being witnessed across countries and regions. These include the slowdown and rebalancing in China; a further decline in commodity prices, especially for oil, with sizable redistributive consequences across sectors and countries across the globe, leading to a related slowdown in investment and trade; and declining capital flows to emerging market and developing economies. These realignments, together with a host of noneconomic factors such as geopolitical tensions and political discord, are generating substantial uncertainty. On the whole, they are consistent with a subdued outlook for the world economy—but risks of much weaker global growth have also risen. (Source: IMF: Recent Developments and Prospects, April 2016).

Preliminary data suggest that global growth during the second half of 2015, at 2.8%, was weaker than previously forecast, with a sizable slowdown during the last quarter of 2015. The unexpected weakness in late 2015 reflected to an important extent, softer activity in advanced economies, especially in the United States, Japan and other advanced Asian economies. The picture for emerging markets is quite diverse, with high growth rates in China and most of emerging Asia, but severe macroeconomic conditions in Brazil, Russia and a number of other commodity exporters, resulting in an overall decline in the rate of growth in emerging economies for the fifth consecutive year. (Source: IMF: Recent Developments and Prospects, April 2016; ICRA Bulletin, Money & Finance, April 2016).

Additionally, financial market volatility, which had subsided in October–November, increased again in December and especially in early 2016, amid rising global risk aversion, substantial declines in global equity markets, widening of credit spreads and historically low yields for safe-haven government bonds. These developments were triggered by concerns about lack of policy space in advanced economies to respond to a potential worsening in the outlook, worries about the effects of very low oil prices and questions about the speed at which China's economy is slowing, as well as its authorities' policy intentions. (Source: IMF: Recent Developments and Prospects, April 2016).

Within the emerging economies, India is expected to outperform other economies with GDP growth of 7.3% for 2015, with forecast GDP growth of 7.5% in each of 2016 and 2017. The thrust to the Indian economy is due to a combination of low inflation, depressed commodity prices (with specific emphasis on oil), relatively stable currency and its continued ability to attract capital flows. (Source: IMF: Recent Developments and Prospects, April 2016).

### **OVERVIEW OF GLOBAL AND INDIAN TOURISM INDUSTRY**

2015 proved to be a successful year for the Travel & Tourism sector, off the back of a modestly stronger economic environment. As per the United Nations World Tourism Organisation (UNWTO), it is estimated that international tourist arrivals grew by 4.4% in 2015 reaching a total of 1.18 billion.

International tourism receipts were estimated to be US\$1,232 billion (UNWTO world tourism barometer). In addition to income generated from international passenger transport, total receipts stood at US\$ 1.4 trillion.

Demand for international tourism was strongest for destinations in the Americas (+5%), Asia and the Pacific (+5%) while the increase in Europe (+5%), the Middle East (+4%) and Africa (-3%) was at a slightly more modest pace. By sub region, South East Asia and Oceania (+7%) saw the best results, Central America and the Caribbean, all increasing by 7%. China, United States and United Kingdom led outbound tourism last year, fuelled by their strong currencies and economies.

The last few years have seen an upsurge in travellers from Asian countries like China and India. The total contribution of travel and tourism to GDP is expected to be around 3.7% and the forecast is that it would rise to 3.8% pa by 2025. It is estimated that the travel and tourism industry generated about 107,519,000 jobs which is 2% more than last year. The number of jobs added is forecast to grow at 2% annually till 2025. (Source: World Travel & Tourism Council).

The long term outlook for the Indian hospitality business continues to be positive, both for the business as well as the leisure segments with potential for economic growth, increase in disposable incomes and the burgeoning middle class. 2015/16 saw the supply grow by 3.9% where as demand increased by 10.5% over last year (Source: STR).

The Company is looking at various revenue enhancement and cost containment measures, so that it can take advantage of the upswing, as the business and economy recovers and the demand supply imbalance gets corrected.

## FUTURE TRENDS

In 2016, the industry's contribution to global GDP is expected to grow by 3.3%. In view of the long term trend, the industry is expected to support 370 million jobs by 2026 which would equate to 1 in 9 jobs across the world.

World Travel & Tourism GDP growth estimated at 3.3% thus represents a stronger rate of growth than the global economic growth estimated at 2.9% and this trend in GDP growth is expected in over half of the 184 countries covered by the World Travel & Tourism Council's annual economic impact research. South Asia is expected to experience the highest growth in 2016 at 6.9%, whilst Europe and Latin America are the regions with the lowest forecast growth of 2.4%.

In 2015, Travel & Tourism was 9.5% of total employment (283,578,000 jobs) and this is expected to rise by 2.2% in 2016 (289,756,000 jobs). Investments in 2015 stood at US\$ 774.6 billion or 4.3% of total investment. In 2016, this is expected to rise by 4.7%.

India is expected to be a driving force for the global economy in the foreseeable future. It also makes it a ripe market for travel and tourism. The key drivers for international travel demand growth to India include the easier e-visa regime, Swachh Bharat Abhiyan, Make in India and other similar initiatives which are expected to build a positive global image for the country and will thus have a long term impact for the travel and tourism industry. WTTC predicts that the strong forecast on travel and tourism industry in India will propel it to the 7th spot in terms of travel and tourism GDP by 2026.

Leisure travel spending is expected to grow by 5.9% in 2016 to ₹6,297.5 billion and domestic travel spending is expected to grow by 6.6% in 2016 to ₹6,284.4 billion. Domestic travel is strong and remains the demand bedrock of the industry; as the economy improves, domestic business, leisure and Meetings, Incentives, Convention, Exhibition (MICE) travel will grow rapidly, spreading over many cities and towns.

## INDIAN HOSPITALITY INDUSTRY LANDSCAPE AND OUTLOOK

Across the industry, there are key business, technology and hotel marketing trends that are set to take root and impact the industry as a whole. These range from the rise of the millennial traveller as the dominant consumer group by 2017, to the increased interest in using mobile devices and apps to enable more personalized hotel guest services.

Consumers are shopping on multiple platforms and there is an ever increasing transparency in rates and guest reviews driven by booking brands such as Expedia, Priceline, Booking.com, Make My Trip and Trip Advisor. Consumer behaviour has seen a change which is demonstrated in shorter booking windows and consumers seeking unique experiences which in real time are shared on multiple social media platforms.

Triggered by these developments, the industry has witnessed consolidation on the supply side such as Marriott's acquisition of Starwood and Accor's acquisition of Fairmont, Raffles and Swissotel brands. Additionally, more and more global chains are expected to be attracted to the low penetration combined with high growth rates in the Indian market and this is expected to further spur competition pressures, which will influence the demand supply dynamics.

The foreign visitor shall continue to drive the demand and it is expected that an increase in foreign tourists going forward would result in enhanced foreign visitor spend, which is currently low due to the limited number of foreign tourist arrivals, when compared to other global destinations. However, the domestic tourist, characterized by low value and high volume is expected to drive the total growth in demand as the trend of growth in domestic tourists continues.

Operating in this environment of growing presence of competition, increasing distribution costs and ever evolving customer preferences, your Company looks to the future well equipped to address these challenges and retain its position as a significant hospitality player in the markets it operates in.

## GOVERNMENT INITIATIVE

Various programmes, schemes, initiatives to encourage and promote tourism are undertaken by the Government of India, Ministry of Tourism. They provide financial assistance to the State Governments and Union Territories to organize various fairs, festivals and tourism related events. Sports events, cultural events, film related events, media events, travel marts and exhibitions are identified for providing exposure to the tourism industry. A new area of election tourism was developed under the umbrella of Tourism Development Corporation Society for foreigners who were keen on experiencing a slice of Indian elections and to create awareness. Ministry of Tourism has also identified film tourism as a niche tourism segment and announced several initiatives. Campaign under name of '777 days of the Indian Himalayas' was launched to promote tourism in

Himalayas to attract international tourist. Golf tourism, polo tourism, rural tourism, cruise tourism, adventure tourism, medical tourism, wellness tourism, eco tourism, development of camp sites, promotion of caravan tourism and caravan camping parks, helicopter tourism are some of the products of Ministry of Tourism for promotion. To encourage quality, standard and service, Ministry of Tourism has scheme of approving travel agents, tour operators, adventure tour operators and tourist transport operators.

## OPPORTUNITIES, THREATS, RISKS AND CONCERNS

Opportunities in hotels, hospitality and tourism industry are infinite. India is a readymade tourist destination with multiple options and topography suitable for different types of tourist. Festivals, historic and heritage locations attracts tourists from across the world. Indian culture, including yoga, ayurvedic medicine, Hinduism and meditation interests international tourists. Number and variety of hotels are present and spread throughout the country to fulfill the demand of the tourists. Low cost for skilled and unskilled manpower also benefits the hotel industry.

Inspite of number of opportunities, factors like high cost and formalities for acquisition of land, high and cascading taxes, delays in receipt of approval, corruption, lack of infrastructure and proper transport facilities in some area, security and safety of tourist, maintenance and cleanliness of tourist location, begging and cheating etc. acts as deterring factors and concerns for the tourism industry.

Political turbulence, terrorism, communal riots, racism, natural calamity, epidemics are few threats to the industry. The Audit Committee and the Board periodically discuss the significant business risks identified by the Management and review the measures taken for their mitigation.

### Industry Risk

General economic conditions The hospitality industry is prone to the impact of changes in global and domestic economies, in local market conditions, excess hotel room supply, reduced international or local demand for hotel rooms and associated services, competition in the industry, government policies and regulations, fluctuation in interest rates and foreign exchange rates and other social factors. Since demand for hotels is affected by global economic sentiments, a prolonged global recession could also lead to a downturn in the hotel industry.

### Socio-political Risk

In addition to economic risks, your Company faces risks from the socio-political environment, internationally as well as within the country, and is affected by events like political instability, conflict between nations, threat of terrorist activities, occurrence of infectious diseases, extreme weather conditions and natural calamities, etc, which may affect the level of travel and business activity.

## Independent Auditor's Report

To,  
The Members,  
RIVER FRONT HOTELS LIMITED

### Report on the Financial Statements

We have audited the accompanying financial statements of **River Front Hotels Limited** (the "Company") which comprises the Balance Sheet as at March 31, 2016, the Statement of Profit and Loss, Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

### Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation and presentation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

### Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made there under.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments,

the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

### Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India,

- a) In the case of Balance Sheet, of the state of affairs of the Company as at March 31, 2016;

"Annexure B" referred to the Independent Auditor's Report of even date on the Financial Statements of River Front Hotels Limited:

## Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of River Front Hotels Limited ("the Company") as of March 31, 2016 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

### Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on "the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India". These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

### Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

### **Meaning of Internal Financial Controls over Financial Reporting**

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

1. pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
2. provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and
3. Provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

### **Inherent Limitations of Internal Financial Controls over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

### **Opinion**

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2016, based on "the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India".

## NOTES FORMING PART OF THE ACCOUNTS FOR THE YEAR ENDED MARCH 31<sup>ST</sup>, 2016

### 1. Significant Accounting Policies:

#### a) Basis for preparation of accounts:

The financial statements of the company have been prepared in accordance with the Generally Accepted Accounting Principles in India (Indian GAAP) to comply with the Accounting Standards notified under the Companies (Accounting Standards) Rules, 2006 (as amended) and the relevant provisions of the Companies Act, 2013. The financial statements have been prepared on accrual basis under the historical cost convention. The accounting policies adopted in the preparation of the financial statements are consistent with those followed in the previous year.

#### b) Use of estimates:

The preparation of the financial statements in conformity with Indian GAAP requires the Management to make estimates and assumptions considered in the reported amounts of assets and liabilities (including contingent liabilities) and the reported income and expenses during the year. The Management believes that the estimates used in preparation of the financial statements are prudent and reasonable. Future results could differ due to these estimates and the differences between the actual results and the estimates are recognized in the periods in which the results are known/materialize.

#### c) Cash and Cash Equivalents :

Cash comprise cash on hand and demand deposits with banks. Cash equivalents are short term (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

#### d) Tangible Fixed Assets:

Fixed assets are carried at cost less accumulated depreciation and impairment losses, if any. Cost of acquisition includes taxes / duties (net of credits availed) and other attributable costs for bringing assets to the condition required for their intended use.

#### e) Intangible Assets:

Intangible assets are carried at cost less accumulated depreciation impairment losses, if any. The cost of an intangible assets comprises its purchase price, including any import duties and other taxes (other than those subsequently recoverable from the taxing authorities) and any directly attributable expenditure on making the asset ready for its intended use and net of any trade discounts and rebates. Subsequent expenditure on an intangible asset after its purchase/completion is recognized as an expense when incurred unless it is probable that such expenditure will enable the asset to generate future economic benefits in excess of its originally assessed standards of performance and such expenditure can be measured and attributed to the assets reliably, in which case such expenditure is added to the cost of the asset.

**f) Depreciation and Amortization:**

- i. Depreciation on fixed assets is provided on WDV method as per Companies Act, 2013 at the rate in the manner prescribed in schedule II of the said Act.
- ii. Depreciation on additions / disposal during the period is provided on prorate basis according to the period during which assets are put to use / being used.
- iii. No Depreciation has been provided in respect of Capital Work in Progress.
- iv. Pursuant to the transition provision prescribed in schedule II to the Companies Act, 2013, the Company has fully depreciated the carrying value of asset, net of residual value, where the remaining use full life of the asset was determined to be NIL as on 1<sup>st</sup> April 2015, adjustment of amount against the opening surplus balance in statement of profit and loss under reserve and surplus.
- v. Depreciation expense in the statement of profit and loss for the year is higher because of change in method of calculating of depreciation as per Company Act 2013.

**g) Investments:**

Long term investments are carried individually at cost less provision for diminution, other than temporary, in the value of such investments determined on an individual basis. Current investments are carried individually, at the cost. Cost of Investments includes acquisition charges such as brokerage, fees and duties.

**h) Valuation of Inventories:**

- i. Raw materials are valued at cost or net realizable value whichever is lower.
- ii. Work in progress has been valued at cost of materials and labor charges together with relevant factory overheads.
- iii. Finished Goods are valued at cost or net realizable value whichever is lower.
- iv. Stores & Fuel are valued at cost or net realizable value whichever is lower.

**i) Taxes on Income:**

Current tax is the amount of tax payable on the taxable income for the year as determined in accordance with the provision of the Income Tax Act, 1961.

Minimum Alternate Tax (MAT) paid in accordance with the tax laws, which gives future economic benefits in the form of adjustment to future income tax liability, is considered as an asset if there is convincing evidence that the Company will pay normal income tax. Accordingly, MAT is recognized as an asset in the Balance Sheet when it is probable that future economic benefit associated with it will flow to the Company.

Deferred tax is recognized on timing differences, being the differences between the taxable income and the accounting income that originate in one period and are capable of reversal in one or more subsequent periods. Deferred tax is measured using the tax rates and the tax laws enacted or substantially enacted as at the reporting date. Deferred tax liabilities are recognized for all timing differences. Deferred tax assets in respect of unabsorbed depreciation and carry forward of losses are recognized only if there is virtual certainty that there will be sufficient future taxable income available to realize such assets. Deferred tax assets are recognized for timing differences of other items only to the extent that reasonable certainty exist.

that sufficient future taxable income will be available against which these can be realized. Deferred tax assets are reviewed at each Balance Sheet date for their reliability.

Current and Deferred Tax relating to items directly recognized in equity and not in the Statement of Profit and Loss.

**j) Provisions & Contingencies:**

A provision is recognized when the Company has a present legal or constructive obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which reliable estimate can be made. Provisions (excluding long term benefits) are not discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates. Contingent liabilities are not recognized but are disclosed in the notes to the Financial Statements. A contingent asset is neither recognized nor disclosed.

**k) Earnings per share:**

Basic earnings per share are computed by dividing the net profit / (loss) after tax by the weighted average number of equity shares outstanding during the year. Diluted earnings per share is computed by dividing the net profit / (loss) after tax as adjusted for diluted earnings by the weighted average number of equity shares outstanding during the year.
